## AMOS supplies innovative Heavy Lifting Solution: “A great success”, says appreciative customer.

### The AMOS Group

AMOS Group Limited is a leading international provider of diversified products, services, and solutions to customers in the marine and energy sectors. The AMOS Group supplies customers with world-class technical products, supported through a seamless inventory management system, backed by our certified fabrication management system, and test facilities in strategic regional locations.

### Project Overview

Once again, AMOS Group has provided a key lifting package for a complex heavy lifting project - Quay Project Top Side Lifting - which ensured that the lift was successfully completed within the critical timeline.

AMOS Group was presented with a challenge to come up with an innovative lifting package that could enhance our customer's operations while keeping all requirements (FMECA, lifting requirements, etc.) in mind, to deliver a Safer, Smarter, and more Reliable lifting system.

AMOS's lifting solution helped our customer achieve a more cost-effective application which increased operational efficiency and lowered operating costs, while providing safer working conditions.

- Project: Quay Project
- Topside Weight: 8972 Metric Ton
- Lifting Slings: 8 x 164mm diameter 50-meter Effective Working Length, Dyneema rope grommet, MBL 2448Metric Ton

### AMOS | Core Competences

Singapore-based AMOS Group operates multiple manufacturing and testing facilities for Heavy Lift Slings, Synthetic Slings and Lifting Gear, backed by rigorous quality control for each operation process. The Group draws upon decades of rigging and lifting experience with a seasoned technical team that provide Lift Managers and Offshore Construction Contractors with safe, efficient, and innovative rigging, lifting and mooring solutions.

### AMOS | Offshore Customers

The AMOS Group supplies offshore customers with world-class technical products, supported through a seamless inventory management system, backed by our certified fabrication management system, and test facilities in strategic regional locations.

*AMOS is an authorised distributor of Samson, the world leading developer of high-performance synthetic rope solutions.*
