

15th June 2021

AMOS Group has a rich and diversified history, headquartered in Singapore, serving our customers globally. Our mantra, 'We Supply' is at the core of all that we do. I am stoked and incredibly honored to lead and be part of this great team at AMOS.

Technology and digitization of our industry are key to the transformation of AMOS Group. Through technology, we will offer new products, services, and solutions, connecting and optimizing the customer experience and enabling more efficient operations and utilization of assets.

We will build new digital platforms, which will deliver integrated solutions, automation and access to our people, products, and services seamlessly, with speed and efficiency, to deliver superior value to our customers and partners.

ESG continues to be at the top of our agenda. We are fully committed to our ambition of reducing CO2 emissions and our environmental footprint. We will work together with our people, customers, and partners globally to develop shared visions to reduce our combined footprint. In the coming months, we will present our specific 2025 targets and action plans.

We will continue to develop ALCONA, our in-house brand, utilising advanced fabrics, materials and technologies to bring our customers and partners alike, the best-in-class products that exceed expectations of quality and performance.

The COVID-19 pandemic continues to impact the world. As a global company and a caring industry leader, we have and will continue to remain focused on protecting our employees, supporting our customers, and contributing to the societies of which we are a part.

I intend that we will become the Employer, the Supplier and Partner of choice, delivering real value in all that we do as we embark on the next stage on our journey of innovation and creation!

Please do not hesitate to drop me a line on LinkedIn or direct e mail. We value your ideas and feedback. In the meantime, stay healthy and safe.

Keith Mullin
Chief Executive Officer
